Purposes of the Residence

In this eighth edition, the Residence will refer to the same guiding themes that animate the programming of the courses held by the school in the current year: "Space, Time, Movement: how to represent them?".

It is a wide-ranging topic that is an essential part of any artistic research.

The theme can also be conjugated in a metaphorical and analogical sense in close relationship with the local reality, the environment, the culture, the history of Pavia and its territory.

Commitments of the winning artist

The artist, in the elaborate, will indicate the contents of a specific project, consistent with the contents set out above, which he will carry out, if successful, at the headquarters of AR.VI.MA., without time limits.

He must be independent in finding the materials and equipment necessary to carry out the work.

During his stay, the artist will have to report to the artistic director on the work in progress.

The completed work, and its accompanying documentation, will be exhibited in an institutional city space or in another suitable space, available to the city.

The winner of the residence must comply with the regulations for the use of the premises and furnishings made available. Ar.vi.ma declines all responsibility for damage caused inside
